Summarize dashboard

Dashboard Highlights

- 📄 **Contacts Module:** A total of 32,795 contacts were recorded, with a significant 99.95% categorized as "Leadsjhbbjhwe" and only 0.05% as "Customer".
- 🔍 **Top Sources for Contacts:** "Direct traffic" is the leading source, contributing to 88.97% of contacts, followed by "Social media" at 8.09% and "Organic Search" at 1.84%.
- ⚠️ **Opportunities Module:** Across various widgets like "Stages Distribution", "Opportunity Status", "Funnel", and "Conversion Rate", there were no recorded activities or revenue. All metrics reported zero values, indicating a potential issue in data collection or a complete lack of opportunities during the period.
- ✅ **Manual Actions:** A total of 70 calls and 2 SMS were completed, with no pending actions, suggesting efficient handling of manual tasks.
- 🔍 **Google Analytics Count:** No page views were recorded, indicating either a data capture issue or a lack of web traffic during the period.
- 🔍 **Lead Source Report:** No data was available, suggesting a potential gap in tracking or reporting of lead sources.

Final Insights

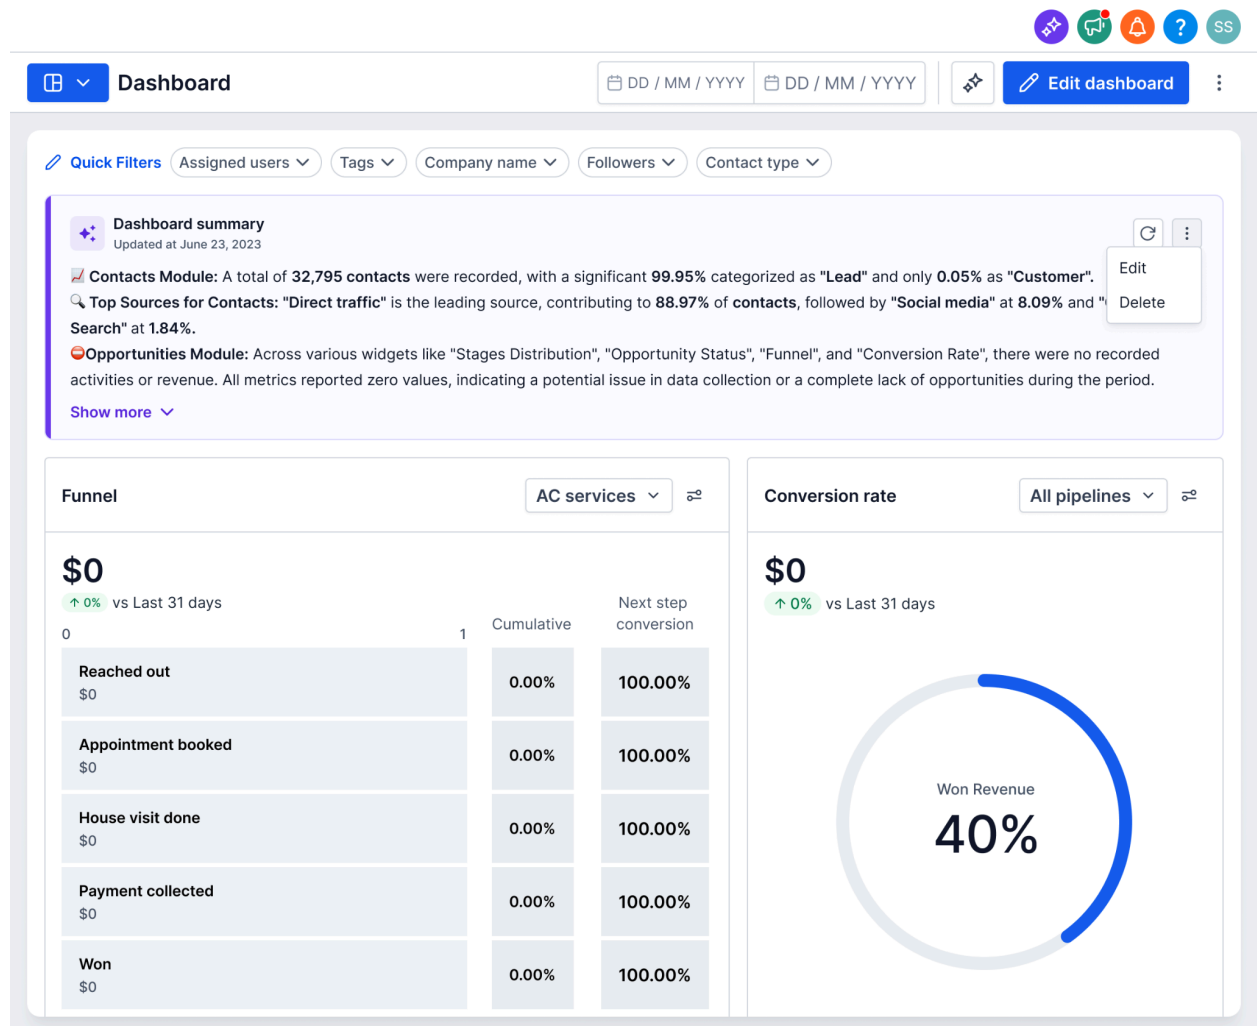

- Focus on identifying and resolving data capture issues in the Opportunities module to ensure accurate tracking and reporting of business activities.

Save summary as new widget

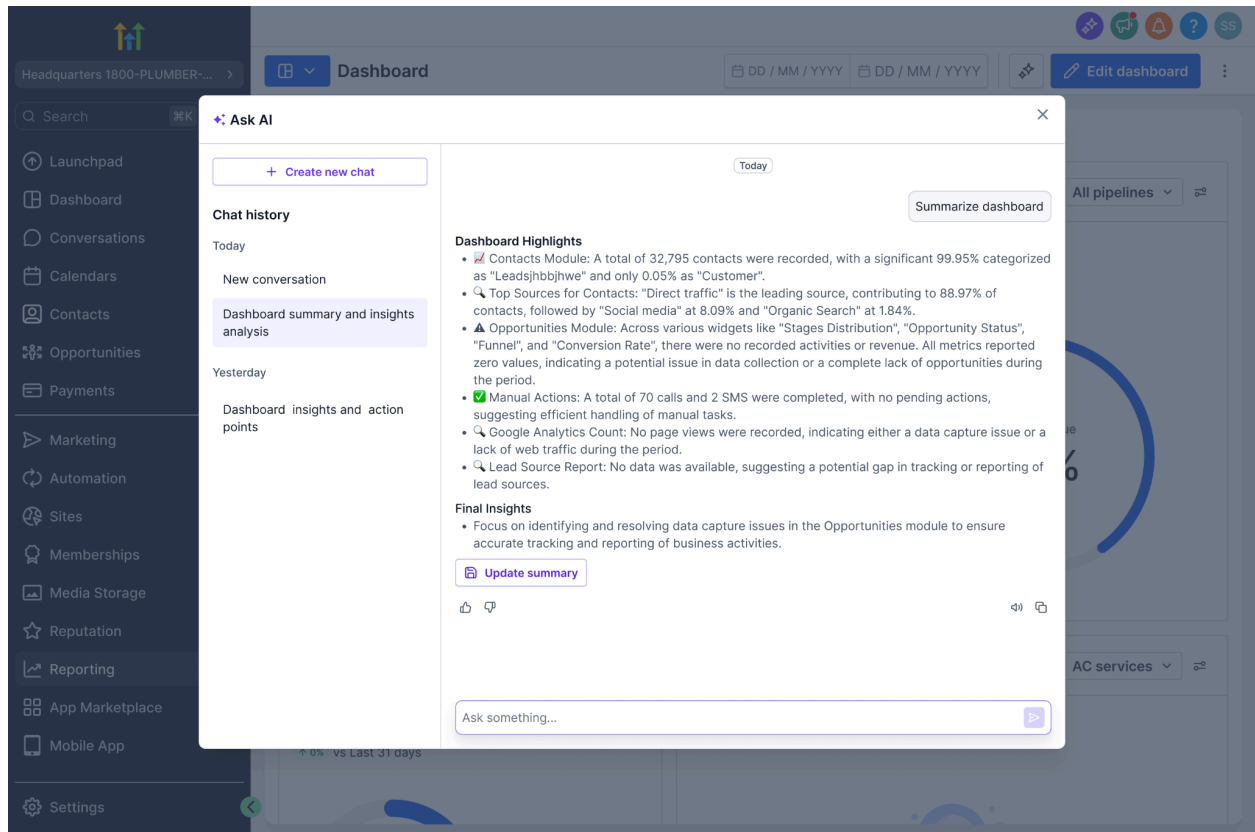

👍 🗨 🔊 📄

Ask something...

- In the Ask AI side panel, clicking on "Save summary as new widget" will make that summary content into a rectangular box and add it as a widget in the dashboard.

4. In Ask AI side panel, clicking on expand icon, opens the Ask AI modal popup

5. The main crux of this release is to have “Summary AI widget” in the edit dashboard. Clicking on it will again open the Ask AI popup with “Summarize dashboard” for that respective dashboard clearly mentioned.
